Lab 6
Mastering the Masthead

DESCRIPTION

Attempt to recreate using only CSS and HTML, the masthead for *one* (or more) of the below Canadian newspapers.

INSTRUCTIONS

☐ **STEP 1:** Download the provided HTML template and files.

☐ **STEP 2:** Update the `<h1>` heading text in the HTML to match the selected masthead (choose one below).

☐ **STEP 3:** Browse the available Web fonts from current Web font services (Google Fonts, Typekit, FontSquirrel etc.) and select a font face that is a convincing match to your selected masthead.

☐ **STEP 4:** Apply CSS rules to display the HTML heading text in a way that reasonably emulates the typography of the masthead as it appears below.

☐ **STEP 5:** Attempt to set any background colours and images on the `<h1>` element using CSS such that your masthead resembles the image below.

EVALUATION

Criteria	Mark
Marks are assigned based on the steps completed above.	/5
